

DFOG Expert Industry Support

Organization and Contact	Experience/Expertise
Southwest Research Institute (SWRI) Contact: Mr. John Gomez John.gomez@swri.org http://www.swri.org/	Mr. Gomez has been at SWRI since graduating with a B.S. in Chemistry in 2008. He has held laboratory technician, scientist and research scientist positions and currently sits in the Fuels and Lubricants Research Division. Mr. Gomez is a member of the ASTM D02 Committee. SWRI is a non-profit, multidisciplinary research institution. Through their Fuels and Lubricants Division, they provide diesel fuel testing services for many DFOG member stations.
SGS Herguth Labs Contact: Ms. Mindy Villalba and Mr. Nuno Moreira 800-645-5227 Mindy.Villalba@sgs.com Nuno.Moreira@sgs.com http://www.sgs.com/	SGS Herguth provides chemical testing services for many DFOG members at their laboratory facilities. Ms. Mindy Villalba and Mr. Nuno Moreira regularly attend meetings and provide support via the DFOG listserv. During the 2018 DFOG meeting, Mr. Moreira provided a training course on Quality Assurance/Quality Control of diesel fuel programs and SGS Herguth provided a tour of their laboratory testing facilities.
Fuel Tank Maintenance Co., LLC Contact: Mr. Jerry Hahn 931-528-1137 Jthahnjr@hotmail.com http://fueltankmaintenance.com/	Fuel Tank Maintenance Co., LLC provides tank cleaning/maintenances services and fuel filtering support to the nuclear and other industries. Mr. Hahn regularly attends DFOG meetings and provides support via the DFOG listserv. At the DFOG meetings, Mr. Hahn provides an annual report on U.S. diesel fuel quality trends.

DFOG Expert Industry Support

Organization and Contact	Experience/Expertise
National Biodiesel Board Contact: Mr. Scott Fenwick 800-841-5849 Sfenwick@biodiesel.org http://biodiesel.org	The National Biodiesel Board serves as the US biodiesel industry's central coordinating entity. Mr. Scott Fenwick is the technical director of the organization, and is the current chair of the ASTM D02 Committee. Mr. Fenwick regularly attends DFOG meetings and provides support via the DFOG listserv. He attended the Joint EDG Owners Group meeting at EPRI in the 2019 where he was able to provide valuable information regarding the use of biodiesel fuel in EDGs to systems engineers from nearly all US nuclear stations.
Biodeterioration Control Associates, Inc. Contact: Dr. Fred Passman 609-306-5250 Fredp@biodeterioration-control.com www.biodeterioration-control.com	Biodeterioration Control Associates, Inc. provides industry solutions to microbial contamination of fuels. Dr. Passman is the president of the company, and has more than 45 years of experience in environmental-industrial microbiology. He has been the chair of ASTM D02 Subcommittee 14's Fuel Microbiology Working Group since it was created in 1994. Dr. Passman attends DFOG meetings when his schedule allows, and provides support via the DFOG listserv.

DFOG Expert Industry Support

Organization and Contact	Experience/Expertise
<p>Fuel Quality Services, Inc. (FQS) Contact: Mr. Howard Chesneau 800-827-9790 HChesneau@fqsinc.com</p> <p>Contact: Mr. Edward English 770-967-9790 Eenglish@fqsinc.com http://www.fqsinc.com/</p>	<p>FQS provides fuel system biocides, stability additives, microbial test kits, and add-on site services to industry. Mr. Chesneau has 30 years of experience in fuel additives, microbial detection, distillate fuel problems, fuel filtration and tank remediation. He serves on ASTM D02 Subcommittee E (Burner, Diesel and Marine Fuels) and has been involved in establishing specifications for biodiesel fuels. Mr. English is recognized for expertise in the area of fuel systems, fuel specifications, storage and distribution of fuels, materials compatibility, and fuel contamination issues. Mr. English is the vice-chair of the ASTM D02 Subcommittee 14 on the stability and cleanliness of fuels and chairs the ASTMD02 Subcommittee 14's Fuel Corrosivity Working Group.</p>
<p>Tennessee Department of Agriculture Mr. Randy Jennings (615) 837-5150 randy.jennings@tn.gov http://www.tn.gov</p>	<p>Mr. Jennings is the Director of Operations of the division of the TN Department of Agriculture dealing with Fuel Quality. He was recently recommended by Mr. Steve Westbrook (SWRI) as a technical resource for the DFOG. Mr. Jennings serves on the ASTM D02 Subcommittee E (Burner, Diesel and Marine Fuels). Mr. Jennings provides support via the DFOG listserv.</p>
<p>MWESI (Exelon PowerLabs) Ms. Helene Roth Helene.Roth@exelonpowerlabs.com https://www.exelonpowerlabs.com/</p>	<p>Ms. Roth is the director and owner of MWESI, an analytical chemistry laboratory, with over twenty years of experience in performing diesel fuel oil testing. MWESI is a subcontracted partner of Exelon Powerlabs and performs nuclear diesel fuel analysis for both the Exelon fleet and other nuclear stations.</p>
